Fujitsu Full-Service Self Checkout U-SCAN Venture

Venture forward with self-checkout

More than 20 years after transforming retail with the first self-checkout solution, Fujitsu continues to lead the digital transformation of in-store shopping with the new full-service self-checkout, U-SCAN Venture. U-SCAN Venture enables retailers to take shoppers on the complete journey of self-checkout, including automated bill and coin recycling for high-performance cash transactions. Designed from the ground up for maximum flexibility and reliability, U-SCAN Venture delivers a bold new path for self-checkout in a purposefully minimalist aesthetic. Multiple configurations allow retailers to deploy a U-SCAN Venture solution uniquely designed to meet their specific needs. It's time to move forward with a progression of the self-checkout experience. It's time for U-SCAN Venture.

Key Features

- Bulk note and coin acceptance for faster cash transactions
- One of the smallest full capacity recycling SCO on the market
- Industry-leading coin and Fujitsu note recycling components
- Highly configurable for front-end flexibility
- Fujitsu S3 compatibility with A.I., U-SCAN software, etc.
- Adaptable design meets any deployment needs
- Best-in-class counterfeit and fitness detection/sorting

U-SCAN Venture's forward-thinking design ensures that as the speed of change in retail accelerates, U-SCAN Venture can adapt with it. Built on top of the Fujitsu Automated Solution SmartCASH™ SE cash box module, a full currency and coin recycling unit with bulk coin acceptance, the U-SCAN Venture - as well as the standalone SmartCASH SE - allow for lightning fast self-checkout transactions in an elegantly designed package. U-SCAN Venture was engineered to simplify upgrading and modifying the device well into the future, without sacrificing the build quality that has established Fujitsu's heritage reputation.

S³

Self Service Simplified

Fujitsu S3 is a suite of modular software and hardware solutions designed so that retailers can pick and choose building blocks to create a complete in-store solution or integrate individually into their existing estate to augment their in-store capabilities. S3 solutions ensure high adoption rates while reducing the friction associated with in-store technologies.

Unified Commerce Solutions

As part of Fujitsu's S3 line of self-service products, U-SCAN Venture personifies unified commerce hardware solutions. The compact size and unprecedented configurability allow retailers to deploy an intuitive self-checkout solution with a common self-service platform throughout their entire retail environment.

A common look and feel across all self-service devices ensure your customers always know what to do so that they can easily shop and pay, not struggle with technology.

S3 solutions not only reduce estate management costs, they reduce interventions to free up labor for revenue-generating activities and improving the customer experience.

S3 Compatibility

| U-Scan | Integro | Taskforce | PalmSecure | Vision | Enterprise |

U-SCAN Venture Specifications

Dimensions (W x D x H)	520mm x 721mm x 1761mm
Weight (without bills)	Approx. 205kg
CPU	Intel 7th Generation Kabylake Core i5-7500T Memory: 8GB Standard memory; expandable to 16GB Storage: 256GB Solid State Drive
Ehternet	1 x 10/100/1000 LAN
Inputs/Outputs	3 x 12 V P-USB 1 x 24 V P-USB On-board Video (VGA) 3 x USB 3.0 Ports
Display	19" or 15" Color Touch Screen, Landscape or Portrait mode Projected Capacitive Multi-Touch (10 point Touch) 1024 X 768 Resolution
Scanner Scale	High performance 1D and 2D bar code bioptic scanner (EAS supported) Maximum Static Weight: Up to 300lb / 136 kg depend on model
Printer	High Speed Thermal Printer
Lane Light	Tri-color indicator light
Bill Recycler (GSR50)	Suggested configurations: 2R + 1D R = Recycling cassette D = Deposit cassette 2 Rollers per Recycling cassette, up to 4 denominations
Recycle Cassette Capacity	240 Bills total capacity (Approx.)
Deposit Cassette	1,500 Bills per cassette (Approx.)
Deposit Volume	50 Bills per transaction
Deposit Speed	3 Bill/1 sec. 20 Bills/10 sec.
Dispense Volume	20 Bills per transaction
Dispense Speed	3 Bill/1 sec. 20 Bills/12 sec.
