In-Aisle Self-Service Solution

U-SCAN VisionScale

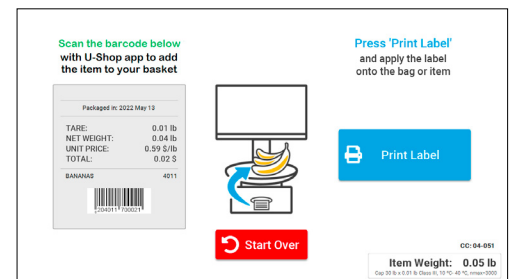

Self-service beyond the checkout

For today's consumer, self-service is no longer an expectation, it is a requirement. As a result, new business challenges and operational demands have emerged. In order to meet rapidly evolving customer needs, retailers must provide self-service touchpoints that empower the customer to shop the way they want, when they want. U-SCAN VisionScale is designed to help retailers adapt at the speed of change by deploying a flexible solution for simplifying self-checkout of weighted, non-barcoded items. U-SCAN VisionScale brings simplified self-service beyond the checkout by providing an in-aisle self-service touchpoint allows for identification and weighing of items, then shoppers can print or scan a barcode to complete the transaction at checkout.

Key Features

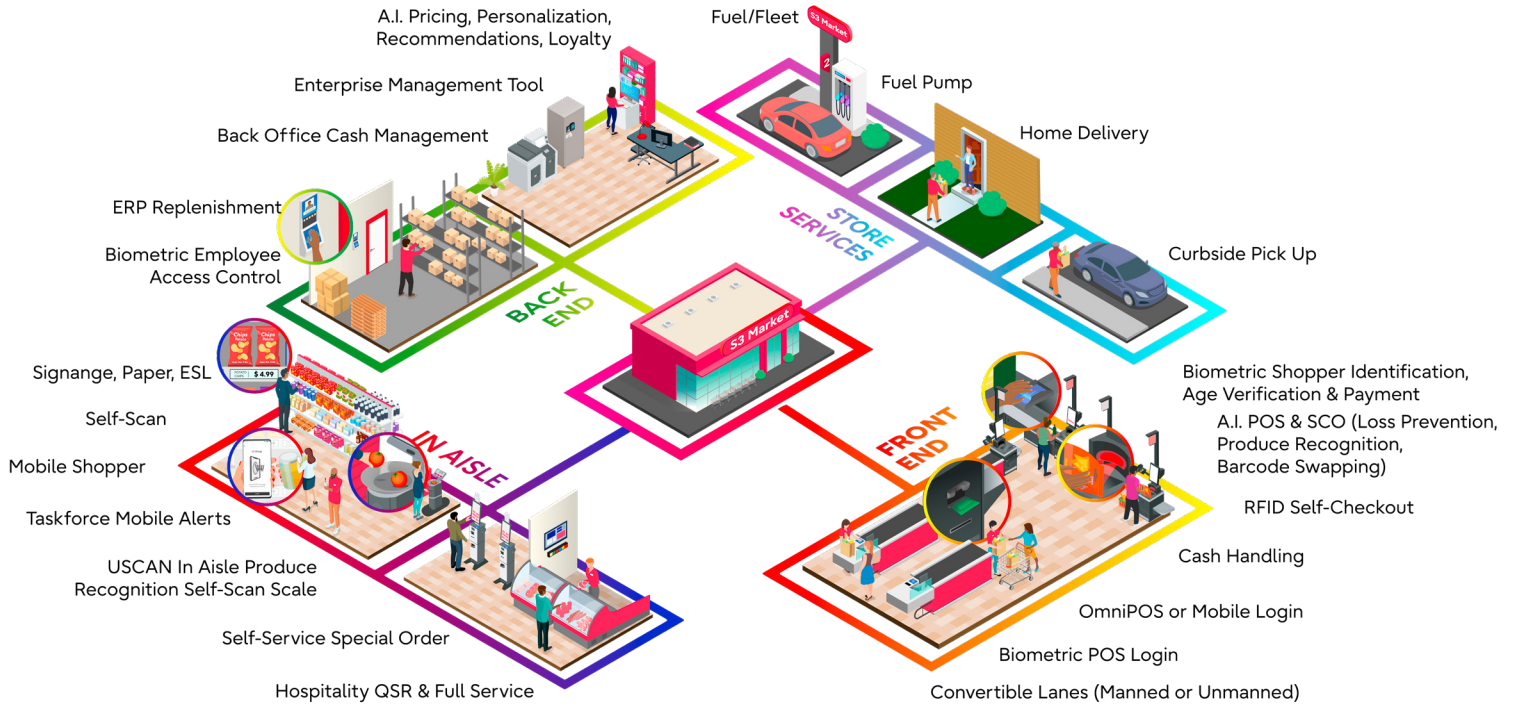

- Identify items and reduce loss with A.I. technology
- U-SCAN integration provides consistent user interface and eliminates need for third-party item information platforms
- U-Shop support provides shoppers with ability to scan and pay using a mobile device with no paper barcode
- User-friendly interface makes SCO management easy
- S3 compatibility (U-SCAN Venture, U-SCAN Express+, etc.)

U-SCAN VisionScale provides retailers with the flexibility to expand self-service options beyond checkout. With U-SCAN VisionScale, shoppers can quickly weigh and identify non-barcoded items, and print a self-adhesive barcode label that can be scanned at self-checkout or use mobile shopping applications to scan the barcode in-aisle, thus speeding up the purchase experience. Designed with an intuitive interface and compatible with Taskforce, Integro and Enterprise, U-SCAN VisionScale removes the barriers associated with self-service of non-barcoded items.

S³ Self Service Simplified

Fujitsu S3 offers a versatile suite of self-checkout software and hardware solutions for retailers, designed to accommodate various retail environments. Whether building a new self-service system or integrating into an existing ecosystem, S3 ensures seamless compatibility and enhances in-store capabilities for widespread adoption.

Unified Commerce Solutions

As an important component of the S3 line of self-service solutions, Fujitsu Integro embodies unified commerce. With a WebAPI interface and open architecture for use across various systems and devices, Integro gives retailers the power to perform predictive maintenance.

Support for new and existing retail ecosystems guarantees smooth integration, while consistency across your in-store environment ensures that shoppers won't struggle with new technology.

S3 solutions cut estate management costs and reduce interventions, freeing up valuable labor for more revenue-generating tasks and customer interactions.

U-SCAN VisionScale Specifications

CPU

Type	Intel® Celeron® Processor N3160 Quad Core
Operating Systems	Windows 10 Enterprise LTSC version 1809
Memory	DDR3L
Storage	4GB RAM
Operator Display	15.6" touch TFT Resolution: 1366 x 768 (HD/WXGA) Intel® Wi-Fi 6 AX201
Inputs/Outputs	2 USB 3.0 (Super Speed) 2 USB 2.0 (High Speed) 2 COM (RS232) LAN (RJ45, GBit LAN)
Printer	3" Label Printer High speed print; up to 150 mm/s EAN / UPC / QR Code / Datamatrix Code
Camera	USB 2.0 Camera
